MAKE SURE  
IT'S RAK

# Sensate

A product series that provides innovative solutions that enable stroke victims and people with upper-limb disabilities to eat independently. The multi-award winning design provides a multi-functional plate partition, which allows the user to cut bites of food in any size, regaining a sense of pride and independence. The collection features a range of sensory elements that guide the user and enhance the dining experience.

# Design Features

By sliding the utensil between the gap of the partition, users can easily cut through their food using one hand.

The sensory guide is a small indent on the rim of the plate that allows users with vision impairment to easily locate the partition

The depth of the plate coupled with the partition allow the user to scoop up their food easily.

A wider, smoother handle for an easier more ergonomic grip. Designed for all hand sizes; the slanted line provides pinky support for users with bigger hands.

The slight edge on the inside of the bowl acts as an indicator for users with visual impairment. When scooping along the inner wall, the edge signifies to the user to stop.

Bowl features an ideal curvature for scooping and containing the food in the centre of the bowl, where it's most visible

An international award  
winning design

# Options

Dining Plate

ø28 cm - h 3 cm  
ø 11" - h 1.2"

Rimless Dining Plate

ø24 cm - h 2.5 cm
